PROFILE

Senior brand & CGI designer with 5+ years of experience translating brand ideas into cinematic imagery. Currently Art Director at Salt and Pepper (Warsaw), one of Poland's leading independent creative agencies, and founder of Davidova Studio — an independent CGI practice. Comfortable across the full pipeline: concept, art direction, brand systems, packaging, 3D, and marketing-ready asset delivery for digital, social and print.

CORE COMPETENCIES

CGI & 3D	Photorealistic product viz · Hard-surface modeling · Procedural shading · Lookdev
Brand & Identity	Visual systems · Identity guidelines · Packaging · Typography · Editorial layout
Art Direction	Concept development · Mood & reference systems · Campaign visual language
Lighting	Studio · Cinematic · HDRI-driven · Multi-pass rendering · Compositing
Motion	Looped product motion · Camera animation · Marketing-format outputs
Workflow	Client briefs · Iteration cycles · Cross-platform delivery (web, social, print)

EXPERIENCE

Founder · CGI Art Director 2024 — Present · Warsaw
Davidova Studio

- Independent CGI practice serving brands in fragrance, cosmetics, FMCG and tech.
- Full pipeline ownership: concept, direction, modelling, shading, lighting, post.
- Delivery across web, social and print with brand-consistent asset systems.
- Self-built studio website (davidova.studio) — design, code, and brand system.

Art Director · Brand Designer 2023 — Present · Warsaw
Salt and Pepper

- Brand identity and visual systems for premium clients across hospitality, retail, fashion and tech.
- End-to-end ownership of design work — from concept and strategy through to delivery.
- Close collaboration with strategy, copy and motion teams on multi-channel campaigns.
- Contributions to several award-considered projects and pitches for international brands.

3D / CGI Designer 2021 — 2023 · Warsaw
In-house · E-commerce & lifestyle

- Daily product visualization and packaging renders for the marketing pipeline.
- Collaboration with marketing, photo and brand teams on campaign assets.
- Mobile-first asset versioning for social, paid and on-site placements.
